### Yoemen Open Season September 21st

### ALL DEPARTMENTS IN READINESS FOR YEAR

#### To The Democrats of Milam County

On Saturday September 1, 1934, my term of office as Chairman of the Milam County Democratic Executive Committee expired. I was appointed to this place in May 1928 to direct the national campaign.

I am grateful for the opportunity that came to me to be of service to the Party. The fact that these years crowded with work at great personal sacrifice is unimportant. My supreme desire was to get the job done. Hundreds have been kind enough to express their personal appreciation for the service I rendered. I wish to thank them for their commendation. I appreciate the vote of thanks given me by the Executive Committee on last Saturday for the service I rendered as Chairman.

On July 28th I was defeated for re-election. To the Democrats who supported me I extend this word of warm thanks. I hold in grateful remembrance all those friends and supporters who helped me. I also thank the people for the co-operation they displayed in making the recent speaking campaign for candidates a success. I trust the Committee will insist on a continuation of this method of conducting the campaign.

I am not unmindful of the co-operation of the publishers of Milam county and thank them heartily for their fine contribution to the success of our work.

I congratulate my several successful opponents on their opportunity to be of service to the Party. The Chairmanship without compensation or reward, as in my case, is the proving ground for unselfish service. Let us hope that the welfare of the party as it relates to the entire body will be the goal of their efforts.

It is better to have labored and lost than never to have worked at all. In that final accounting when the fair and impartial light is shed upon the pages of record each will possess only what he has given away.

Gratefully yours,  
J. B. WHITE.

Parnell, Vocational Agriculture teacher of Cameron. ### NIGHT GAME WITH MARLIN FOR OPENER

Yoemen will inaugurate the 1934 Football season on the night of September 21 in a game with Marlin.

Coach Wood was whipping the new season machine into shape for the opening game and indications are that the Yoemen will go under the lights in this initial contest far in advance of the average early season showings.

The game here on September 21 is a non district game but will be of great value to the coach and his men as a preliminary engagement for the coming district race.

The only disheartening thing thus far experienced was the apparent lack of general interest on the part of eligibles for the club. Coach Wood anticipated enough men to run three teams, but thus far only 23 men have reported for practice. Actively supported by the Athletic Council those in direct charge of the 1934 set up are asking greater co-operation.

It was pointed out that from the student body numbering more than 200 boys the number actually participating was not doing justice to prospects.

Coach Wood is one of the most successful in Texas. At McGregor where he coached last year with only 51 boys to choose from 23 reported for the team. Exactly that number has reported for Cameron out of 200 boy students.

Parents and those interested in the success of the 1934 athletic program which should be the most impressive in high school history here, are being urged to lend their co-operation to the end that more men report for the team.

For the first time in the history of the school advance preparation took into consideration all proper organization of activities giving the school the advantage of a constructive and forward looking program. The success of this program, it is pointed out, depends on the co-operation of the citizens.

With the proper support, which means every available man for the team and financial backing by mass patronage of the games, Yoe High will find her rightful place among the major high schools of Texas.

The 1934 program is a challenge to every patriotic citizen. Let's go forward and achieve a deserving goal for Cameron, Coach Wood and the Yoemen.

## Introducing

# A Gas Water Heater Radically Different

Gas Water Heaters and other modern gas appliances are available also from your dealer. See his displays.

Original and individual in appearance, this new Ruud is a radical departure in gas water heater design and performance. Conventional ideas have had no part in its development. It is wholly unlike any automatic water heater you've ever seen!

The glistening porcelain-enameled jacket is a delight to the eye. But what's more important is the "inside" where a new principle of "Faucet-Control" and "Faucet-Action" is employed to give you an instant, unlimited flow of hot water at a fuel cost controlled by your hand at the faucet.

The faucet's opening starts gas burner and hot water flowing with instant synchronization—with burner open in direct ratio with water flow. You pay only for the water you use as there is no tank to waste heat with tank radiation.

See this revolutionary advancement in hot water services. Have one installed this month at a special low introductory price.

Be sure the gas appliance you select carries the approval of the American Gas Association Laboratory ... your assurance of safety and lasting satisfaction.

### HOW LONG?

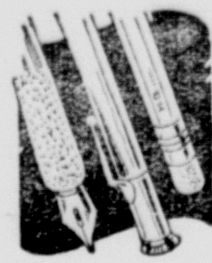

So many things have happened In the year or two just passed, That many people wonder How long we're going to last.

Our liberty has vanished, No longer can we grow And market our cotton Unless we stand in row.

Everything to eat or wear Now bears a process tax Provided it has gone to mill Or felled by butcher's axe.

It may be this is progress, Whom am I to know; But I would like to warn you It can't go on just so.

## LOW COST AVERAGE ON TERRACING REPORTED

It costs an average of \$1.14 per hundred yards of terrace built on the farms where terraces were run last year by students of Vocational Agriculture, a check up by E. D. Parnell, Vocational Teacher, discloses. The cost showed a wide variation between farms, the highest being \$2.15 per hundred yards, and the lowest 14 cents. All prices were figured on the basis of five cents an hour for horse or mule labor, and \$1 per day for man labor. The reported costs included the making of fills, and the more gullied the fields the higher the cost for terraces. Last year's vocational students ran 38,000 yards of terrace on 19 farms and more than two-thirds of the terraces were built.

Corsicana graders and Martin ditchers were used in most cases, with county machinery doing the

work on some farms. A few used home made V drags. The terraces on all farms average 16 inches in height, 14 feet in width and 328 yards in length.

The Cameron Future Farmer chapter, of which all Vocational students are members, entered a Texas terracer contest and the check-up now being made is for reports to the state office. The school in this district making the most points will be given a terracing machine by the Brown Tool Co., of Breckenridge, Texas. Many requests have already come in for terracing this fall, Parnell reports, and work of running the lines will begin soon after the opening of school.

Mrs. Mike Coleman of Bryan spent last week here with relatives and friends. Mr. Coleman came over for the week end and was accompanied home by Mrs. Coleman.

Miss Mary Ellen Cottle spent several days in Bryan visiting relatives and friends.

Mrs. Daisy Tyson of Maysfield visited in Cameron Monday.

## Rain-Making Ends in Tragedy

Capt. James A. Boze, self-styled rainmaker and electrician of Wazahachie, Texas, is dead. His rain-making efforts caused his death, and whether he ever made it rain is still a moot question. It did rain following Captain Boze's cloud-bombing. The top picture shows Boze preparing for his last flight. In the picture stands Miss Gertrude Jeffries, who was also burned when the plane from which Boze was throwing bombs caught fire. Boze was badly burned and died with pneumonia which followed. Lou Foote, who made a heroic landing, his plane on fire, also is shown above, while the burning plane is pictured below. (Texas News Photos.)

## Thank You All

I wish to take this method of expressing my sincere appreciation and undying gratitude to all of my friends and supporters who stood by me so loyally in my race for Assessor and Collector of Taxes for Milam County. Although I was defeated by a small majority of 17 votes I am grateful for, and proud of, every one of the 3184 votes that I received.

Throughout the campaign I have solicited votes strictly on my own merits and with absolutely no mudslinging or "whispering campaign" propaganda against my opponents. Now, in defeat, I want to say that I still believe my successful opponent is a good man and will render the people of Milam county the kind of service we deserve.

To my friends and supporters I again want to say: "Thank you" and to Mr. Bonds: "Congratulations and the best of luck."

Sincerely,

**Henderson Walker**
